

AMERICO CUNHA, PhD

My mission is to promote hands-on learning experiences and skills development of problem-solving, critical thinking, and quali-quantitative analysis in Project, Operations and Supply Chain Management. My teaching differentials represent a combined approach of in-depth understanding of Business Operations and SCM models in real business scenarios, and "almost real" stories from my 20 years multifaceted experience in the service and manufacturing industries.

Students Feedback & Testimonials

2012-2016

- Managing Business Processes, Winter 2016: "... Additionally, the various activities in class to supplement the lectures were useful to help me really grasp the information."; "Americo make the class fun and while never deviating from the main course content. He takes time and effort to explain the course content and ensure the entire class follows"
- Project Scheduling & Risk Mgmt, Fall 2015: "Americo Cunha is a very enthusiastic professor, he is very engaging and is able to communicate the material very effectively. If any situation arises and the student is having trouble, Americo is very helpful and tries to do the best he can. Overall, he is one of the best professors I have experienced in my academic career."; "Americo uses multiple assessments in order to determine your grade for this course, more than any other class, which is really helpful. He makes sure you are learning and following along with the course material before the exams."
- Managing Business Processes, Winter 2015: "Americo is the titan of teachers! his cheerful nature and excellent teaching style was the only thing that brought me to sheridan at 8am for all his classes in both the first and second semester..."; "Americo is a fantastic professor. He takes the time to explain concepts that are critical to understanding. He uses diagrams to illustrate concepts and does not hesitate to sit down with students to further discuss learning. Americo is very approachable and friendly. It was a pleasure to learn from him. His class is always enjoyable"
- Project Scheduling & Risk Mgmt, Fall 2014: "Absolutely a fantastic professor. He accurately demonstrates the importance of class materials, and is always willing to assist students. I cannot believe how much I have learned in a short amount of time because of his class. He is very welcoming and definitely brings a smile to all our faces on Wednesday afternoons"; "I think that Americo is one of my best teachers of this course , I love the way he teaches , he really does a dynamic way , even with jokes at class that makes the class entertain and makes us catch our interest , ...with good and ordinary examples of the day to day life . This is my favorite class."; "Americo is the most committed, passionate and patient professor I have seen in Sheridan. I cannot wait to attend his lecture, not only for his professional expertise, but also for his love for teaching and his students."
